

Reduce Costs

# Want to reduce the cost of your waste? Even earn money from it?

 phs Wastekit can **save you up to 90% of your waste disposal** costs - guaranteeing you savings on your waste bill and putting more money back into your business.

More and more businesses are realising the earning potential of their waste and taking steps to dramatically cut their waste costs. Are you?

### How to make big savings

Paying to have your waste removed is one of the most frustrating costs a business faces - but there are ways to reduce the frequency of those collections and even generate an income from your waste.

phs Wastekit offers high quality, easy-to-use baler and compactor solutions that help businesses reduce the cost of their waste.

### Waste collection savings

Our top of the range compactors compress your general waste, reducing the volume of the waste and therefore the number of waste collections you need - saving you money.

Our compactors can compress as many as 10 bags of waste into 1, freeing up bin space on your premise and making your waste disposal more manageable too.

# Save **money**

## **Adding value to your business**

Our high quality balers compress your recyclables, like cardboard and plastic, into bales which can be sold to recycling companies, earning your business extra revenue.

pws Wastekit works with recycling companies across the UK to get our customers the best price for their waste, reducing their need to pay for waste disposal and giving our customers a new revenue stream.

## **Wastesaving Audit**

Talk to one of our experts today on how you can reduce your waste disposal costs and potentially generate an income from your waste.

Our free, no obligation Wastesaving Audit is the most comprehensive in the sector. It includes a free site survey, a free bespoke consultation on how your business can make savings and if you're still not convinced, our team will discuss the opportunity for a free trial of one of our balers or compactors.

As well as supplying high quality baler and compactor machines, pws Wastekit offers servicing and maintenance across the UK.
